

Mortgage Enforcement

Our Mortgage Enforcement practice group provides services for a wide range of industries, including financial institutions, prominent real estate developers and property managers, small and medium-sized business, and individual investors.

Details

The lawyers in Koskie Minsky's Mortgage Enforcement engineer successful outcomes for our clients in difficult situations. We build systems and processes to manage sizeable portfolios. For particularly complex and extraordinary claims, we develop customized systems to ensure expeditious service and timely reporting. Likewise, our practitioners format conventional mortgage enforcement litigation involving substantial volumes of claims into a system that increases efficiency and provides monitoring and quality control mechanisms.

Koskie Minsky also assists clients proactively in preventing and controlling problem areas. We encourage clients, in appropriate cases, to consider alternate forms of resolving disputes, such as mediation or arbitration. We offer our clients workshops and in-house seminars to keep them up to date on current developments and to meet specific needs.
