

Target Canada

We were appointed Representative Counsel for approximately 18,000 former employees of Target Canada Corporation (“Target”). Our mandate included representing all Employees’ interests in connection with all issues affecting them in the CCAA Proceedings, including the termination of employment and claims for termination pay and related entitlements. The Target Canada Corporation CCAA was unique in that the parent company guaranteed that amounts owing to employees for severance, termination and contractual entitlements would be paid in full. Target’s employees remained on the job for several months after the CCAA filing. A significant aspect of Koskie Minsky’s role was ensuring that employees remained entitled to these payments during the wind down of the company. [Susan Philpott](#) led the Koskie Minsky team, with assistance from [Simon Archer](#), [Clio Godkewitsch](#) and [James Harnum](#).
